

Honoring UTSW veterans: A tribute in photos

As we prepare to observe Veterans Day, UT Southwestern proudly honors the nearly 800 veterans who are part of our campus community. These individuals have served our country with courage and dedication, and we are deeply grateful for their contributions, both in uniform and here at UTSW.

To commemorate their service, we've curated a special photo gallery featuring images shared by UTSW employees from their time in the military. While this collection represents only a portion of our veteran community, it offers a powerful glimpse into the lives and stories of those who have answered the call to serve.

Thank you to everyone who submitted photos and helped bring this tribute to life.

And don't forget to join us for the [11th Annual Tribute to Veterans Celebration](#) tomorrow, presented by the Office for Institutional Opportunity. The event will feature keynote speaker **Tony Lakin, M.S.I.T.**, Vice President and Chief Information Security Officer at UTSW.

Check out a preview of the event on [Center Times Plus](#).

Discover the newly updated UT Living Well platform

Ready to feel more energized, less stressed, and more in control of your well-being?

The [UT Living Well Platform](#) is your one-stop hub for personalized tools and activities that support your physical, emotional, financial, and work wellness. It's open to all eligible UT SELECT and UT CARE members (employees, retirees, and dependents) 18 years old and older.

Getting started is easy:

- [Register](#) for the platform.
- Take your Well-Being Assessment; it's quick (20 minutes or less) and completely confidential.
- Explore activities under the Discover Tab and start earning points.

When you complete your assessment, you'll earn 500 points, putting you halfway to your first level. You'll also unlock personalized insights in your "My Results" tab.

From there, you can select activities that align with your personal goals, earn points along the way, and work toward exciting rewards at the end of the plan year.

Incentives include fleece blankets, water bottles, wireless earbuds, tool sets, yoga mats, insulated picnic baskets, and more.

Consumer Health Guide empowers you with trusted information

Navigating health information online can be overwhelming, but UT Southwestern's Health Sciences Digital Library and Learning Center is making it easier with the launch of its new Consumer Health Guide.

This thoughtfully curated resource is packed with librarian-vetted links covering popular health topics, making it a reliable starting point for anyone seeking trustworthy answers.

What you'll find:

- Easy-to-navigate sections on common health topics
- Guidance on spotting misinformation
- Tools to help evaluate the reliability of online sources

Why it matters:

With so much health-related content online, it's crucial to know how to evaluate what you find. Whether you're researching a diagnosis, treatment options, or general wellness tips, the guide helps cut through the noise of the internet.

Callier Child Development Program expands enrollment

UT Southwestern's long-standing collaboration with the [Callier Child Development Program](#) continues to support the early education needs of parents and caregivers among our faculty, staff, and students. Now the program is reopening enrollment to the broader community, welcoming families, friends, and others connected to UTSW.

Located adjacent to South Campus at 1966 Inwood Road, Callier is designed to provide a nurturing and developmentally supportive environment for young children. Its approach emphasizes individualized care and hands-on learning experiences that foster growth across all developmental domains.

Program highlights:

- Serves children from 6 weeks to 5 years old
- National Association for the Education of Young Children (NAEYC) accredited
- Frog Street curriculum
- STEAM-integrated activities to encourage creativity and exploration
- Low teacher-to-child ratios support personalized attention

Enrollment is currently open across all age groups, but space is limited. For more information, families are welcome to contact Callier at 972-883-3094.

Celebrating a decade of excellence and progress at the O'Donnell Brain Institute

The Peter O'Donnell Jr. Brain Institute (OBI) was founded in 2015 through a visionary gift from Edith and Peter O'Donnell Jr., and over the last 10 years it has created a blueprint for how ingenuity, investment – and, yes, brain power – can accelerate discoveries in neuroscience.

With more than 2,200 dedicated team members caring for over 300,000 patients every year and \$140 million in annual research expenditures, OBI is making tangible and transformative advances in every aspect of brain research and care, ranging from Alzheimer's disease and autism to epilepsy, essential tremor, depression, and intractable brain tumors.

As voters last week approved \$3 billion in funding for the Dementia Prevention Research Institute of Texas (DPRIT), OBI is poised to lead the way for patients battling dementia, Alzheimer's, and all manner of brain diseases. Please join us in celebrating 10 years of OBI excellence and take a closer look at [10 key areas of progress](#), creating great promise for the future.

Insider Guide

Tribute to Veterans

11:30 a.m.-1 p.m., Nov. 11

Hybrid, South Campus, D1.502

Let's come together to celebrate and honor those who served in the U.S. military – including the veterans who are part of our UT Southwestern community – during our 11th annual Tribute to Veterans. Hosted by the Office for Institutional Opportunity, this event will be livestreamed on UTSW's [YouTube channel](#). Registration is required.

[Be part of this special celebration!](#)

AI Town Hall

4 p.m., Nov. 11

Virtual

To prepare for the upcoming rollout of enterprise-level artificial intelligence (AI) tools at UT Southwestern, a series of AI Town Halls are being presented to faculty, staff, and learners. The sessions will walk through features, share timely updates, and address your feedback and questions. UTSW is committed to providing AI tools that truly support our mission and help drive innovation across the institution.
