

2026-2027
Basic Science: Bench to Bedside
Lecture Series

Presented by:
The Cecil H. and Ida Green Center for Reproductive Biology Sciences

Lectures
Wednesdays 1:30-2:30 pm
F4.118 Conference Room

September 9, 2026	W. Lee Kraus, Ph.D. Biomedical research: Bench to bedside
September 23, 2026	Ed Grow, Ph.D. Pluripotent stem cells and stembryos
November 11, 2026	Gary Hon, Ph.D. Genome engineering and its (future) clinical implications
December 9, 2026	Cristel Camacho, Ph.D. PARP inhibitors: Extended benefits beyond BRCAness
February 10, 2027	Xin Liu, Ph.D. Chromatin dysregulation in human disease: From molecular mechanisms to therapeutic opportunities
March 10, 2027	Dan Huang, M.D., Ph.D. ADP-ribosylation in cardiovascular health and its impact on pregnancy
March 24, 2027	Haiqi Chen, Ph.D. What we talk about when we talk about sequencing
May 12, 2027	Ashley Solmonson, Ph.D. Abnormal metabolism during pregnancy: Clinical manifestations and relevance to perinatal complications
